## Overview

EDEExpress Pell Grant, EDEExpress Direct Loan, and COD message classes are provided in this section. All message classes are named from the user perspective.

- The first four characters of the message class identify the type of data.
- The two numbers that follow refer to the cycle year.
- The last two characters of the message class identify the data as input (“IN”) sent to the processor or output (“OP”) received from the processor.
  - Files that are exported from EDEExpress are assigned the letters “IN” within the message class.
  - Files that are imported into EDEExpress are assigned the letters “OP” within the message class.
